Ladies of Legacy Inc.

Ladies of Legacy Inc. is an association that provides educational, social and entrepreneurial programs to young men and women who participate in yearly or bi-yearly reunions. Our primary focus is to encourage and develop collaborative relationships between family members to foster growth and awareness in their families and then the community.

To make this Association successful, we need support and cooperation so that we can start hosting events and programs to serve the need of families.

Our focal points are:

- For families to have a positive nurturing support system.
- Offer positive resources to enhance individual and collective value, teach necessary principles, family history and discipline.
- Sharing and encouraging one another through cooperation, respect and teamwork.
- Provide networking exposure.

This association is for educational, entrepreneurial, and charitable purposes. Our plan is to develop innovative solutions to the needs of families. We want to seek to improve health, financial independence, implement the laws of success and network with local populations and institutions.

Based on these principles we hope to become an organization in advocating and implementing solutions for families.

With Enduring Legacy,

Natachia Gourdine-Tyson
CIO, Ladies of Legacy Inc.
